WHAT IS HOUSERS?

Housers was born in Spain in 2015, based on a disruptive and innovative idea that has revolutionized the way of investing, democratizing investment and enabling the general public to support companies in need of financing.

Housers is authorized by the National Securities Market Commission (CMNV) to operate as a Participatory Financing platform with License n°20 and by the Portuguese Securities Market Commission (CMVM).

A CONSOLIDATED BRAND

In 2017, Housers initiated a strategy of internationalization in Italy and Portugal, becoming the leading pan-European platform in real estate investment. Today, Housers has more than 118,000 users from over 155 nationalities.

With the consolidation of its success in the marketplaces where it operates, the company has embarked on its latest challenge with the launch of Housers Corporate, a new business line for financing business projects, jointly with Housers Green, for renewable energy investments.

OUR CORE VALUES

Housers is a sophisticated digital collective investment platform.

Our core values are security, transparency, justice, quality and accessibility.

SECURITY

TRANSPARENCY

JUSTICE

QUALITY

ACCESIBILITY

THREE BUSINESS LINES

Real estate projects

Its purpose is to democratize investment in the real estate sector, offering assets to investors which are tangible and visible, your investments are always linked to real estate.

Renewable energy projects

It was launched to allow investors enter the world of renewable energy. These projects include the construction of solar parks, photovoltaic plants and wind turbine farms.

Business projects

Its objective is offering new investment alternatives to investors and providing companies the access to credit for the development of business projects of all kinds.

OUR JOURNEY

PROFITABILITY

Housers' investors can maximize their investments, earning yields greatly exceeding those achievable in other types of investments.

The average IRR of the projects concluded on the platform is 9.11%.

LOAN TYPES

DEBT OR NON-CONVERTIBLE EQUITY

Financial loan with a fixed and a variable interest tranche, this last one depending on the evolution of the activity of the borrowing company, which will be considered as equity for the purposes of capital reduction and company settlement.
