- 4.3 Registration as a User to use the Website is free, without prejudice to the rates applicable to the provision of services by Housers to third parties and Users in relation to each Opportunity and which may be included in the cost of the Contract or which shall be paid for by the Developer, through which the Opportunities published on the Platform are developed. Moreover, if applicable, any expenses or charges indicated at the time of registration may be applied to the Investors, in accordance with the provisions of these Terms and Conditions and the rates published on the Website and which form part of the Contract.

Moreover, Housers reserves the right to prohibit access to the Website to any User or third party that infringes this prohibition and to take the measures that are appropriate in accordance with the law.
- 4.6 Housers' desire is to offer website performance with the highest availability and quality. However, the maintenance and updating of the tools and contents of the Website require interventions in the same that can cause the temporary suspension of its availability. Housers' policy is to schedule such maintenance and updates at times of reduced traffic to minimise the effects on Website Users, without prejudice to Housers' discretion to do so at any time. In any case, Housers reserves the right to temporarily suspend access to the Website, and without the need for prior notice to Users, in order to carry out maintenance, repair, updating or improvement operations on the services, information and content, as well as to modify or update the information, content and conditions of access thereto.

5. **PLATFORM OPERATION**

5.1 **Aspects to be taken into account by the Investors**

5.1.1 ***General Aspects***

- (a) Through the Investor's Private Area, the Investors shall be able to access and analyse the Opportunities published on Housers' Website (in the terms gathered on the Website itself and in the present Terms and Conditions).
- (b) Investors shall be able to access the Opportunities published by Housers on the Website through the "Opportunities" section and shall be able to follow, as far as possible in real time and, in any case, on a daily basis, the financing commitments of other investors (anonymously) for each of the Opportunities published.
- (c) The Investor's registration on the Website and their commitment to enter into a Contract in relation to an Opportunity does not constitute an obligation for Housers to seek or guarantee the success of obtaining sufficient resources to complete said Opportunity or the good outcome of it.
- (d) The Investor may base its decision to enter into the Contract on each Opportunity, among other variables, on the information made available to it on the Website. This information shall be elaborated by Housers, which, for such elaboration and for the determination of the terms and conditions of the requested purchase, shall have access to certain studies on Opportunities. Without prejudice to any other additional information that may be convenient to the Investor for their decision to invest in an Opportunity through the signing of a Contract that is accessible to the Investors, Housers shall make the Contract available to the Investors and the corresponding Developers, in the terms in which it shall be signed between the Developers and the Investors participating in the Opportunity, and which shall come into effect in the event that (i) the investment objective published in the information on the Opportunity is fulfilled and (ii) in those cases in which it is applicable, the Mortgage is constituted and granted; its necessary registration in the competent Property Registry being requested by the Security Agent.
- (e) The Investor shall also have access to the aforementioned studies for the purpose of weighing up their decision to enter into the Contract. These studies and analyses are prepared on the basis of objective criteria that the Investor can consult during the established period and shall be regularly updated with the information derived from the Contracts signed through the Platform.
- (f) The Investor acknowledges that the provision to them of the aforementioned information and documentation does not constitute advice by Housers on the decision to enter into a Contract for the Investor with the Developer. Likewise, the Investor acknowledges that Housers shall not be responsible for the veracity of the information made available to them by third parties in the process of evaluating the Opportunities on the Website.
- (g) The Investor may confirm their decision to enter into a Contract in Opportunities that are of interest to it by accepting (by *clicking* on the acceptance section that shall appear next to the link to the general conditions of the Contract) the terms and conditions of the Contract and of the Mortgage, if the Contract is guaranteed by the latter, and by completing a field enabled for this purpose so that the Investor enters the amount that it wishes to lend in favour of the corresponding Developer for the purposes of the corresponding Opportunity. From that moment on, the Investor shall be bound by the terms and conditions of the Contract.
- (h) At the time of acceptance by the Investor of the terms and conditions of a Contract, under the mandate provided below, Housers shall order the blocking of the amount committed from the Investor's available funds on the account opened by the Investor himself on Lemon Way.
- (i) The information on the evolution of the execution of the actions provided for in a Contract to comply with the provisions of the Opportunity shall be published and updated periodically in the Investor's Private Area.

- (j) Once the Contract has entered into force, the Investors shall entrust the day-to-day management entrusted to Housers by signing an irrevocable mandate agreement under the terms set out below.

5.1.2 **Limits to the Financing Subscription**

- (a) For each Opportunity, Housers shall publish a financing objective and a maximum term for Investors to commit funds to the Opportunity, which shall be a condition precedent to the Contract, taking into consideration the previous study of the Opportunity and the documentation/information provided by Housers during the evaluation process of the same.
- (b) Each Investor shall be able to commit to each Opportunity the amount he considers appropriate through financing, although with the limitations established by law, which currently, under Article 82 PFPP, are
 - (i) 3,000 maximum investment in a single Opportunity, and
 - (ii) 10,000 maximum accumulated investment in different Opportunities published on the Platform, over a period of twelve (12) months.
- (c) Investors who hold the status of "Accredited Investor" shall be exempt from the aforementioned limits, for which they must expressly provide the supporting information required by Housers in order to be assigned this status.
- (d) For each Opportunity, Housers may determine that both the financing objective and the maximum period of time to be able to subscribe financing for the purpose of contributing to the financing objective be extended up to a maximum of twenty-five percent (25%), provided that the Investors have been previously informed of this possibility and of the cases that shall give rise to this extension. These possibilities that the legislation offers the platform shall be used when the typology and characteristics of the project make it advisable so that it can be carried out with lower or higher financing than that requested and the execution periods are not prejudiced. Likewise, HOUSERS may close the financing of an opportunity/project when it has been financed by 90%.
- (e) However, if the financing objective is not achieved within the time period set or, where applicable, the Mortgage is not granted in accordance with the terms agreed in each case, Housers shall proceed to cancel the Opportunity in question, notifying the Investors who have committed their amounts.
- (f) In such case, the funds committed by each Investor in connection with such Opportunity shall be automatically unblocked in their respective accounts opened on Lemon Way.

5.2 **Aspects to be taken into account by the Developers**

5.2.1 **General Aspects**

- (a) Through the Developer's Private Area, Promoters may submit Opportunities for consideration by Housers (on the terms set out on the Website and in these Terms and Conditions) for publication on the Website.
- (b) Housers shall analyse, if applicable, the complete terms of the financing or investment requested by the Developer that has presented their Opportunity for consideration. Whenever Housers, at its complete discretion, considers that a given Opportunity is suitable to be published on the Website in accordance with these Terms and Conditions and other rules established by Housers on the Website, it may publish it on the Platform and, therefore, appear subsequently as

an investment opportunity for Investors in the section "Opportunities" of the Investors' Section.

- (c) Through the Website, the Promoters shall be able to follow daily and, as far as possible, in real time, the signs of interest and the investment commitments of the Investors in their Opportunity.

5.2.2 ***Specific Conditions of the Developers***

- (b) The Developer, by registering on the Platform, declares and guarantees to comply with each and every one of the requirements provided for in the previous paragraphs and to have full capacity to represent and act to carry out the formalisation of the Contract and to assume the obligations provided for Developers under these Terms and Conditions and in the corresponding Contract.
- (c) For the purposes of complying with the provisions of the applicable regulations on the prevention of money laundering and the financing of terrorism, Housers shall verify the identity of the Developer on their own or, as far as possible, delegate the verification of the identity to the entity providing the payment services required to complete the transactions provided for in the Contracts and, to the extent applicable, in these Terms and Conditions. For this purpose, the Developer undertakes to provide Housers with the identification documentation that Housers, at the request of the payment service provider or at its discretion, may reasonably require from the Developer and which shall be, at least, that provided for in the aforementioned regulations and which has been requested from the Developer throughout the registration process on the Platform.

The Application shall be presented through the Website, in the form and with the content that is detailed at each moment in the section "Application for the Study of Opportunity" of the Developer's Private Area on the Website.
- (b) The Application should be accompanied by a description of the Opportunity, which should be written concisely and in non-technical language, providing the necessary information to allow Housers and the average Investor to make an informed judgment regarding the decision to finance or invest in the Opportunity. The description of the Opportunity must be complemented with other information requested by Housers through the Website in accordance with the provisions set forth herein.
- (c) Before issuing any decision regarding the Application, Housers reserves the right to request from the Developer any additional information it considers relevant to the Opportunity or the Developer, for the purpose of evaluating the characteristics and viability of the Opportunity.
- (d) The Developer undertakes and warrants that the information accompanying any Application shall be complete, accurate, truthful and not misleading. The Developer is solely responsible for the truthfulness and accuracy of the information published on the Platform regarding the Opportunities for which the Developer has applied for financing through the Platform. Consequently, the Developer acknowledges and accepts that, in the event of a claim by any third party and, in particular, any Investor, against Housers arising from the omission, falsity or inaccuracy of the information provided by the Developer and published on the Platform, the Developer undertakes to hold Housers fully harmless from any damages it may suffer as a result of such claim, including, but not limited to, legal defence costs.
- (e) Registration of the Developer on the Website and the approval of the publication of an Opportunity does not constitute, in any case, an obligation for Housers to procure the financing required by the Developer or to guarantee the obtaining of the necessary investment to undertake the Opportunity.

5.2.5 **Study and Selection of Opportunities**

- (a) Once the Developer has registered on the Website and sent the corresponding Application, Housers shall study and evaluate the characteristics and risks associated with the Opportunity in accordance with the provisions of the LPFP, as well as any other aspect that Housers considers relevant for the purpose of evaluating the Opportunity.

- (b) Housers, at its sole discretion, in accordance with its internal policies and the minimum acceptance criteria for projects published on the Website, shall determine whether the Application should be approved, always in accordance with principles of neutrality, diligence and transparency.
- (c) Since some of the Opportunities shall be offered with a mortgage guarantee or other additional guarantees in favour of the Investors, Housers shall inform the Developer of this circumstance, as well as the terms and conditions under which the mortgage right must be granted.
- (d) The Developer undertakes to communicate to Housers, through the means provided for herein, any change in the conditions that could affect the Opportunity during the period of study and evaluation referred to in this section. Failure to comply with this obligation may result in the early termination of the Contract, in accordance with the terms agreed by the parties thereto.

5.2.6 **Registration and Publication of Opportunities**

- (a) Once the evaluation of the corresponding Opportunity has been completed, Housers shall inform the Developer of its decision to publish through the communication channel established for this purpose, either in a positive or negative sense.
- (b) Within a maximum period of 90 days from Housers' notification of the approval of the Application, Housers shall publish the Opportunity on the Website, listing it as an investment opportunity for Investors in the "Opportunities" section of the Investors' Section.
- (c) In the event that Housers considers that the information provided by the Developer is not true or correct, Housers may refuse to publish the Opportunity on the Website, which it shall communicate to the Developer in accordance with the provisions of this section. Furthermore, in such case Housers shall have the right to withhold any amounts paid by the Developer as commission for the study, costs incurred and evaluation of the Opportunity.

5.2.7 **Sole Purpose of the Opportunities**

- (a) The Developer must use the funds obtained from the Investors in the form of Financing exclusively for the specific purpose predefined by the Developer in the Application.
- (b) If the purpose of the Financing is the acquisition of Assets, this must be carried out directly by the Developer, who must be the registered owner of the Asset or Assets in which the Opportunity consists. Under no circumstances may the acquisition of the Asset be indirect, nor may the Developer use the financing for any of the following purposes:
 - (i) The professional financing of third parties and, in particular, the granting of credits or loans.
 - (ii) The subscription or acquisition of shares, bonds and other financial instruments admitted to trading on a regulated market, a multilateral trading facility or equivalent markets in a third country.
 - (iii) The subscription or acquisition of shares and units in collective investment institutions or their management companies, venture capital entities, other closed-end collective investment entities and management companies of closed-end collective investment entities.

- (c) In the Application the Developer must provide the characteristics of the Asset or Assets that are the purpose of the Opportunity and any other relevant information for the evaluation of the same.

5.2.8 **Updating of Information Published on the Website**

The Developer guarantees that the information that is published on the Website regarding their Opportunity is updated at all times, and undertakes to inform Housers and Investors, through the communication mechanisms of the Platform, when (i) there are circumstances that alter the characteristics of the Opportunity or the Developer themselves and/or (ii) they suspect or become aware of a change or circumstance that could affect the Opportunity or the Developer.

5.2.9 **Limits to the Number of Opportunities**

- (a) After evaluating the Application and prior to its publication, Housers shall establish a financing/investment objective and a maximum period of time to be able to participate for each Opportunity, taking into consideration the previous study of the Opportunity. Both the funding objective and the deadline shall be communicated to the Developer and must be accepted by the Developer prior to the publication of the Opportunity and shall be a condition for such publication.
- (b) No Developer may have more than one Opportunity published on the Website at any one time.
- (c) The maximum amount of funds raised for each Opportunity through the Housers website may not exceed 2,000,000 euros, and successive rounds of financing may be carried out that do not exceed the aforementioned amount on an annual basis. When the projects are addressed exclusively to accredited Investors (as described in the LPFP), the aforementioned maximum amount may reach 5,000,000 €.
- (d) For successive rounds of financing, the Developer must submit additional Applications, which shall be analysed by Housers in each case for approval in accordance with the provisions of these Terms and Conditions, as it deems appropriate in each case.
- (e) For each Opportunity, Housers may determine that the financing objective and/or the maximum term for participating in the financing of the Opportunity may be exceeded by up to twenty-five percent (25%), provided that the Developer and the Investors have been previously informed of such possibility and of the assumptions that give rise to such an overrun.
- (f) However, if the financing objective is not reached within the time frame set or, if applicable, exceeded by the permitted limit, Housers shall proceed to terminate the Opportunity (or the additional round of financing) in question, notifying both the Investors who have committed their funds and the Developer.
- (g) Notwithstanding the provisions of the foregoing paragraphs, Housers may, if the Opportunity and the Developer so permit, establish that the Opportunity shall receive the financing/investment when at least ninety percent (90%) of the financing objective has been achieved, after deducting any participation in the Opportunity that Housers may have in said Opportunity, and provided that the Investors and the Developer are informed, prior to the commitment of the funds, of such possibility and of the assumptions giving rise to it.
- (h) Additionally, in accordance with the provisions of the applicable regulations, Opportunities that, with the Developer being a consumer, incorporate a mortgage guarantee, in accordance with the provisions of Article 87 LPFP, shall not be accepted.

5.2.10 **Application of Consumer Law to Developers**

- (a) Developers must inform Housers of their professional activity as part of the registration process on the Platform. Likewise, the Developers, in the corresponding Application for Financing, must declare to Housers whether the project for which financing is requested is part of their professional activity or corporate purpose, for the purposes of the provisions of the LPFP and, in particular, for the purposes of applying the restrictions established in said regulation and the consumer and user protection regulations.

- (b) Housers' governing body shall provide periodic and unambiguous guidance and direction to senior management on the principles on which the operational risk management framework is based and approve the corresponding policies developed by senior management. Such guidelines and direction shall cover operational risk as well as the tolerance for operational risk under its policies for managing these risks and its criteria for prioritising activities for this purpose,

specifying to what extent and in what way operational risk is transferred out of Housers.

- (c) On a recurring basis, Housers shall carry out an internal audit of its processes to verify that they are efficient and allow the ordinary development of its activities in accordance with the policies, guidelines and directives approved by its administrative body.

- 14.6.1 If the Developer fails to make a payment or only partially pays the amount due in relation to the Contract, Housers shall contact the Developer to request the payment due.
- 14.6.2 If after 30 calendar days the outstanding payment has not been received by the Investor, Housers shall send a communication by registered mail with acknowledgement of receipt warning the Developer that, if the situation of non-payment persists, the Contract may be declared terminated in its entirety in advance due to the Developer's breach.

The situation of manifest non-payment cannot exceed the non-payment of three (3) accumulated instalments.

14.7 Sale of the unpaid contract and legal claim process

14.7.2 If no offers to purchase the unpaid Contract are received or Housers considers that they are not sufficiently satisfactory considering the possibilities of the Contract purchase market, Housers may decide that the Investor shall assign the unpaid Contract to it. To this end, the Investor may assign the unpaid Contract to Housers for the amount due at that time, which shall be paid to the Investor once Housers, in accordance with the following provisions, has collected all or part of the debt. The Contract shall be assigned under the condition "unless otherwise agreed". In that case, Housers shall initiate the claim process described below:

This process may involve the seizure of the Developer's assets and, if any, its guarantors. If all or part of the debt is collected, Housers shall deliver the amount recovered to the Investor, after deducting the claim expenses incurred in the process in accordance with the limits set forth below. In the event that no amount is recovered, Housers shall not charge the Investor for these claim expenses.
- (b) Housers may refer the claim to the debt collection agency with which it reaches an agreement (hereafter the "**Debt Collection Agency**"), which shall assess the situation and decide whether the possibilities of recovery justify a legal claim. The Debt Collection Agency and Housers shall analyse each case on a case-by-case basis and, if deemed necessary to safeguard the interests of the lenders (Investors), may negotiate a partial discharge of the debt or sell the defaulted loan at a discount, all within the maximum discharge or discount thresholds agreed with the Investor in the Platform Terms and Conditions contract (or, where applicable, the mandate contract for such purpose).
- (c) In the event that the amount finally collected, minus the deduction, if any, does not cover all the debt and the claim expenses, these claim expenses shall be deducted from the value collected with a limit of 40% of the amount recovered.
- (d) Upon early termination of the Contract, the amounts finally collected from the Developer shall be applied in the following order:

- (i) Payment of claim expenses (to the Debt Collection Agency and to Housers)
- (ii) Payment of the debt (capital and interest) to the lenders.

14.8 Execution of the Contract and the Mortgage Guarantee

- 14.8.1 If any of the "Breaches" set forth in the Contract have occurred without the Developer having remedied them within five (5) business days, by agreement of the Investors as set forth in the Contract, the Investors shall have the right to declare the early termination of the Contract, or the early expiration of the payment obligations arising from the Contract.
- 14.8.2 In the event that the early termination of the Contract is declared, the Developer shall be obliged to pay the Investors, within five (5) working days from the date on which it was notified of such circumstance, the outstanding amount as well as the other amounts due under the Contract, including ordinary and indemnity interest, commissions, taxes and expenses accrued in accordance with the provisions of the Contract.
- 14.8.3 Once the declaration of early termination has been adopted by agreement of the Investors, the Investors shall, if they deem it appropriate, instruct Housers to notify the Security Agent of the execution of the mortgage collateral, in accordance with the terms of the mandate contract (Section 8 of these Terms and Conditions) granted in favour of the Security Agent.

14.9 Exemption from liability for the availability of the Website

- 14.9.1 Since Housers' Website is based on software, hardware, and Internet systems, Housers does not guarantee continuous or uninterrupted access to and use of the Website. Consequently, the system may eventually be unavailable due to unforeseen circumstances or force majeure, as well as due to technical difficulties or Internet failures, or any other circumstance beyond Housers' control. In such cases, efforts shall be made to re-establish it as quickly as possible without any responsibility being attributed to Housers.
- 14.9.2 Housers shall not be liable for any errors or omissions contained on the Website. Users may not accuse Housers of any responsibility or demand payment for damages due to technical difficulties or failures in the systems or on the Internet.
- 14.9.3 The website is hosted in a secure data centre owned by a specialised hosting company, and whose service availability is guaranteed.
- 14.9.4 Given the diversity of parties involved in providing the Website service, Housers does not guarantee the continuous availability of the service. Notwithstanding the above, and to try to avoid the non-availability of the service as much as possible, the Platform has a triple backup system:
 - (a) Customised backups (developed by Housers) of the database, which are made every hour on different servers.
 - (b) Backups of *e-wallet* transactions with Lemon Way; and
 - (c) Differential daily backups of the entire virtual server where the Platform is hosted, in charge of the specialised hosting company (ISP).
- 14.9.5 Likewise, if Housers' activity terminates definitively for any reason, the contractual relationship between Housers and the User shall be terminated in accordance with the provisions of Clause 18 below. In such event, the User acknowledges that such termination shall not affect the provisions of the Contract, if any, that Investors have entered into with the Developer, and/or its partners, which shall remain in force for the term set forth in such Contract and shall be governed by the provisions thereof. In such case, the Investors shall coordinate with the Developer the appropriate mechanisms for communication between the Investors and the Developer in the development of their

relationship under the Contract, without the Users having the right to claim from Housers for any reason.
